A
Bibliography
of
Tree Nut Production
and
Marketing Research,
1965-71

U.S. DEPARTMENT OF AGRICULTURE
LIBRARY
FEB 12 1973
PROCUREMENT SECTION
CURRENT SERIAL RECORDS

Economic Research Service
U.S. DEPARTMENT OF AGRICULTURE

ABSTRACT

This bibliography lists tree nut production and marketing research reports published during 1965-71. There is a section for each tree nut that is important in domestic trade channels. Listings are arranged alphabetically under subject matter headings. An alphabetical listing of authors, with numbered references, is included.

Key words: Nuts, wholesale marketing, retail, production.

Washington, D.C. 20250

December 1972

AVAILABILITY OF REFERENCES CITED

From the National Agricultural Library (NAL)

Most of the publications cited are in the collection of the National Agricultural Library. They are available to USDA employees by submitting requests on Form AD-245 National Agricultural Library Request for Publication (8-71) in person or by mail. Others may request loan through a recognized library. All requests should be addressed to the Lending Division, National Agricultural Library, Beltsville, Md. 20705

Books may be borrowed by USDA employees, agency-field libraries, land-grant colleges, and other qualified organizations. The loan period for books is generally 1 month. All loaned books are subject to recall when needed by others.

Serials are not usually circulated outside the Library. The Library reserves the right to substitute photo copy instead of lending the original. No charge to the USDA employee or his agency will be made for such substitution. Non-USDA requesters may purchase microfilm or photo copies from the NAL photocopying service. Copying charges are:

For microfilm: \$1 for each 30 pages or fraction
copied from a single article or book.

For photo copies: \$1 for each 4 pages or fraction
copied from a single article.

The charges include the postage. This copying service may not be used to circumvent normal copyright restrictions.

Free Distribution

Inquiries regarding publications issued by the Department of Agriculture, the State Experiment Stations, and the State Agricultural Extension Services should be directed to the issuing agency. The National Agricultural Library does not distribute these publications.

PREFACE

This bibliography lists production and marketing research reports on tree nuts published from 1965 through 1971. Reports published before 1965 appear in U.S. Department of Agriculture Miscellaneous Publication No. 1064, dated July 1967.

The bibliography contains a section for each tree nut that is important in domestic trade channels. Within the section on each tree nut, listings are arranged alphabetically by author under subject matter headings. An alphabetical listing of authors, with numbered references, is included at the end of the bibliography. Call numbers are those of the National Agricultural Library. If no call number is given, the publication is not in the library.

This bibliography was compiled under the general supervision of Jules V. Powell, Assistant Chief, Horticultural and Special Crops Branch, Marketing Economics Division, Economic Research Service.
